Introduction

This document sets out the governance framework for Haleon plc's Board of Directors and its Committees. It includes our Board and Committee structure, the roles and responsibilities of the Board and its Committees, and their respective Terms of Reference. Designed to promote effective leadership, robust oversight, and sustainable success, this framework aligns with the UK Corporate Governance Code and relevant legal requirements. It serves as a key reference for directors, senior management, and stakeholders, providing clarity on how key decisions are made at Haleon. The Board regularly reviews this framework to ensure it remains fit for purpose and reflects current best practices in corporate governance.

Board and Committee Structure

The principal decision-making body is the board. It has responsibility for setting the strategic direction of Haleon plc (the “Company” or “Haleon”) and for ensuring that risk is managed effectively. The board is accountable to shareholders for the Company’s financial and operational performance. It is supported by four committees: the Audit & Risk Committee, the Nominations & Governance Committee, the Environmental & Social Sustainability Committee, and Remuneration Committee.

Responsibility for implementing operational decisions and the day-to-day management of the business is delegated to the Chief Executive Officer who is supported by the Haleon Executive Team (the “HET”). The HET is supported by several sub-committees/forums.
